Caledonian Cowgirl offers modern, contemporary and stylish wedding stationery to couples who are looking for something a bit different. We create bespoke designs based on the needs of each client, and you can also select from our collection stationery suites in our online shop.

There are many ways to make an impression and set the scene to an event, and one of the most important ways to do so is through invitations. An invitation is often the first touchpoint for an event, so it has to embody the essence of what you're trying to achieve. By sending out the perfect invitation it let your guests know that they're in for a unique experience from the very beginning.

Often people are unsure what style to go for with their stationery. In the next few pages you'll find some of the most popular options, but remember, the sky is the limit so there are plenty more ideas out there!
